

YELLOC LINEUP

Serviceline

The Original

YELLOC Serviceline plugs offer an environmental and material protection system preventing oil and chemical spills and leakage and contamination.

MULTIPLE usage in applications such as any Hydraulic maintenance, heavy industry, offshore, forestry, construction, lifting, shipping, demolition, military, transportation, Automotive, Motorcycles, agriculture etc.

THE ORIGINAL YELLOC rubber compound is silicone free and highly resistant to many chemicals, acids and other aggressive fluids.

Aqualine

Design for sanitary and heating installations and service.

YELLOC Aqualine plugs are the optimal tool for any water based usage.

AQUALINE applications range from Sanitary/plumbing works through to heating, boilers, radiators. All hoses and piping systems in and outdoors.

AQUALINE rubber compound is silicone free and used for Plumbing and Heating maintenance.

Foodline

Special FDA approved material for commercial and industrial applications

YELLOC Foodline plugs are produced from a FDA approved material. Foodline is to be used where mediums like food, drinks and pharmacies are involved.

FOODLINE applications are in commercial and industrial areas such as: restaurants, bars, cafes, hotels, private homes, dairies, breweries, bakery, food processors and chemical factories.

THE USAGE of Foodline is immeasurable for both service and storage.

PLUGS can be cleaned manually or by using any private or industrial washing systems.
